### COMMISSIONER CUTS DOWN "DETAIL" LIST.

Fire Commissioner O'Brien this afternoon gave out the 4st of firemen whom he has decided to transfer from headquarters to the companies from which they were detailed. It atfects three officers and about twenty-five men, and leaves at headquarters only one officer, Capt. Donahue, custodian of the building, and about twenty firemen in the various offices. This is a preliminary list and probably will be followed soon by other transfers outside of headquarters.

The twenty men of the Theatre Squad were sent back to their companies and the work of guarding theatres will now be looked after by the Deputy Chiefs, who wil lassign men from

their own districts. The reason for thes transfers, it has been understood is that Commissioner O'Brien found, upon assuming office, that there were too many men detailed to duty at Headquarters who could be used elsewhere.
